

Professional internship (DB-483)

(ERIALAPRAKTIKA)

(Практика по специальности)

SUBJECT DESCRIPTION

Credits (ECTS)	15.00 ECTS
Assessment	pass/fail
Aim of the subject and short description	
<p>Aim of professional internship is to enable student to do practical work connected to their actual speciality, and to offer opportunities to apply knowledge and skills gained during study in high school, in a working environment. Internship develops skills necessary for composing and filling out reports, doing self-analysis and drawing conclusions. Professional internship and final paper are done simultaneously and they are tightly connected to each other – during professional internship the student gathers/implements/creates material/solution/product required for the purpose of final paper. The student composes internship report adhering to specified structure.</p>	
Learning outcomes:	
<p>Student:</p> <ol style="list-style-type: none">1. knows how to solve and perform practical tasks related to their field in working environment;2. analyses themselves and evaluates their performance as an employee in their chosen field;3. describes the work organisation and key processes of an organisation and is able to assess them;4. is able to associate activities performed during practical work with theoretical knowledge;5. has the social skills required for performing their duties and collecting data for preparation of reports and knows how to use information and communication technology.
